Numerous Accidents Involving School

By Matilda Glenn

A Mackenzie School District bus driver, Stephanie Roberts, was driving under a highway overpass when a huge chunk of snow and ice came crashing through the windshield. The bus, which had just completed pickup at both Micah Middle School and Hadley High School, was filled with students.

The bus careened off the left side of Park Lane just north of the overpass and plunged down a 50 foot ravine landing on its side. Several students were injured and taken to area hospitals. Many of them were released to their parents after being examined; however three students are still listed in critical condition. They are expected to make a full recovery.

Daniel Wood. suffered a head injury when he went through a bus window on impact. Samuel Grayson suffered a fractured pelvis when he was crushed under a seat. Finally, Jayden Grayson suffered a several broken ribs and a punctured lung when she was hit with the fire extinguisher.

A public meeting is scheduled in two months at Micah Middle School to discuss this very controversial issue of calamity days and whether or not to reinstate them within the Mackenzie School District.
